MAD DIGITAL AGENCY

IT'S HIGH TIME TO MAD THAT SH*T

Digital Sales Manager

Who we are:

We are a digital agency made up of pros working together seamlessly as a team. Our clients trust us and we cooperate with them on a long-term basis. We have both local and international clients and manage their campaigns. We work very closely with a PR agency Marcus & Art and sometimes we work with each other on same projects as a team. At the same time, we are a team of people who like to meet outside the office and spend time together otherwise than just by working.

What does it take to be our Digital Sales Manager:

- looking for new business opportunities and approaching prospect clients (there is an entire team of people to help you with the preparation of a bid, budget and argumentation)
- getting acquainted with new trends in digital marketing
- deepening your knowledge about the different services of the digital agency
- doing case studies from jobs we already carried out for presentation purposes when addressing new clients

What we require:

- Higher education (at least bachelor degree)
- Ability to communicate in English
- Pleasant and professional appearance
- Knowledge of digital media services (PPC, newsletters, SEO, social networks)
- Work experience from the digital agency is a plus
- experience as a sales person or an account is a must
- independence (we teach you everything you will need to know)
- enthusiasm and hard work

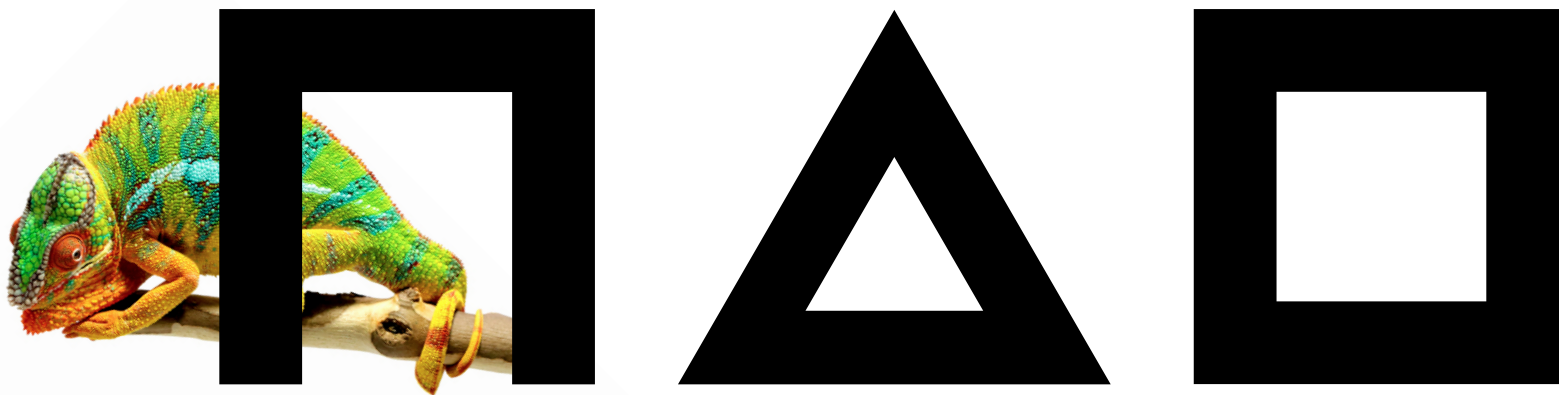

What we offer:

- Good financial evaluation and bonuses based on your performance (number of new clients and / or new jobs)
- Business notebook and mobile phone
- Office in Prague 1
- 25 days paid leave

No match for you? We are always on a lookout for great people. Drop us a line and have a coffee with us.
